

HSPM SIDE HEADS

Introducing Misenheimer Toolroom Technology's High-Speed Planer Matcher Side Heads.

Upgrade your machining capabilities with our innovative high-speed planer matcher side heads designed for dimensional lumber.

HSPM Side Heads

- **Patented Insert Positioning:**
Our unique design allows for twice as many rows of effective insert knives compared to competitors.
- **Shear Angle Positioning:**
Insert knives are strategically positioned on a shear angle, reducing drag on the spindle, enhancing surface finish, and lowering operating decibels.
- **Superior Life Expectancy:**
Our heads outperform traditional steel knife heads, ensuring longevity and durability.
- **Economical Advantage:**
With no grinding required and a unique design, our heads offer a cost-effective solution compared to traditional side heads.

Upgrade your machining efficiency and quality with Misenheimer Toolroom Technology's High-Speed Planer Matcher Side Heads today.
